## SUMMARY

Python Django Developer with 1 year of experience in building scalable web applications. Proficient in Django, REST Framework, MySQL, Bootstrap, and TailwindCSS, with hands-on experience in both function-based and class-based views. Passionate about full stack development and API integration, seeking opportunities to contribute to dynamic projects.

## SKILLS

- Front End: HTML, CSS, JavaScript, Bootstrap, TailwindCSS
- Backend: Python, Django, Flask, Django REST API Development
- Database Management: MySQL, PostgreSQL
- Version Control & Tools: Git, GitHub, Postman
- Other: Authentication, Authorization, Deployment(Render, Heroku, AWS)

## EXPERIENCE

### Riss Technologies, Kannur (June 2023 – May 2024)

Software Associate

- Developed and maintained academic-level web applications using **Django and MySQL**.
- Implemented **user authentication, CRUD operations, and database management**.
- Collaborated with a team to optimize performance and security.
- Gained expertise in **function-based views** and **API integration**.

## Projects

- **FermierApp (Agricultural Products Delivery)**
  - Developed a web and Android-based application for Agriculture product delivery.
  - Implemented features for **order tracking and delivery address customization**.
  - Tech Stack: HTML, CSS, JavaScript, Bootstrap, Django, MySQL.
- **MedApp (Online Medicine Store)**
  - Developed a web and Android-based application for online medicine purchases.
  - Provided a customized user experience in Android for **delivery address setup and order tracking**.
  - Tech Stack: HTML, CSS, JavaScript, Bootstrap, Django, MySQL.
- **TimeWheels (Bus Route, Time Management System)**
  - Developed a **Web and Android-based application** for bus route and time management.
  - Provided real-time tracking of **bus delays, long-route search, and ticket booking**.
  - **Tech Stack:** HTML, CSS, JavaScript, Django, MySQL

---

## INDIVIDUAL PROJECTS

- TweetApp (Clone of Twitter Functionalities)
  - Implemented class-based views with User Authentication.
  - Implemented **Class-Based Views (CBVs) with User Authentication**.
  - Developed features like **tweet posting, viewing, liking, following, blocking, and unblocking**.
  - Gained hands-on experience in **Django CBVs** and **user interaction functionalities**.
  - **Tech Stack:** HTML, CSS, JavaScript, Bootstrap, Django, PostgreSQL
- Matri (a Matrimony Website)
  - used function based views with user authentication.
  - Built a **Django-based matchmaking platform** with **Function-Based Views (FBVs)**.
  - Enabled users to **search for partners, connect, follow, and view profiles**.
  - Implemented **user authentication and secure communication features**.
  - **Tech Stack:** HTML, CSS, JavaScript, Bootstrap, Django, PostgreSQL

## INTERNSHIP

### Take it Smart, Bengaluru (June 2023 – May 2024)

Python Trainee [Internship]

- Utilised Python, SQL, HTML and CSS in my role, demonstrating proficiency in these technologies for Python Web Development.
- Designed and developed innovative features for an existing application, contributing to a 30% increase in user engagement.

## EDUCATION

- BE in Computer Science and Engineering  
Rajiv Gandhi Institute of Technology – Bengaluru  
graduated with 7.61 CGPA
- Higher Secondary Education (Computer Science)  
G H S S - Kuthuparamba, Kannur, Kerala  
passed with 8.53 CGPA

## LANGUAGES

- **English** – Fluent
- **Malayalam** – Native
- **Hindi** – Proficient
